

## LIBRARY or SCHOOL

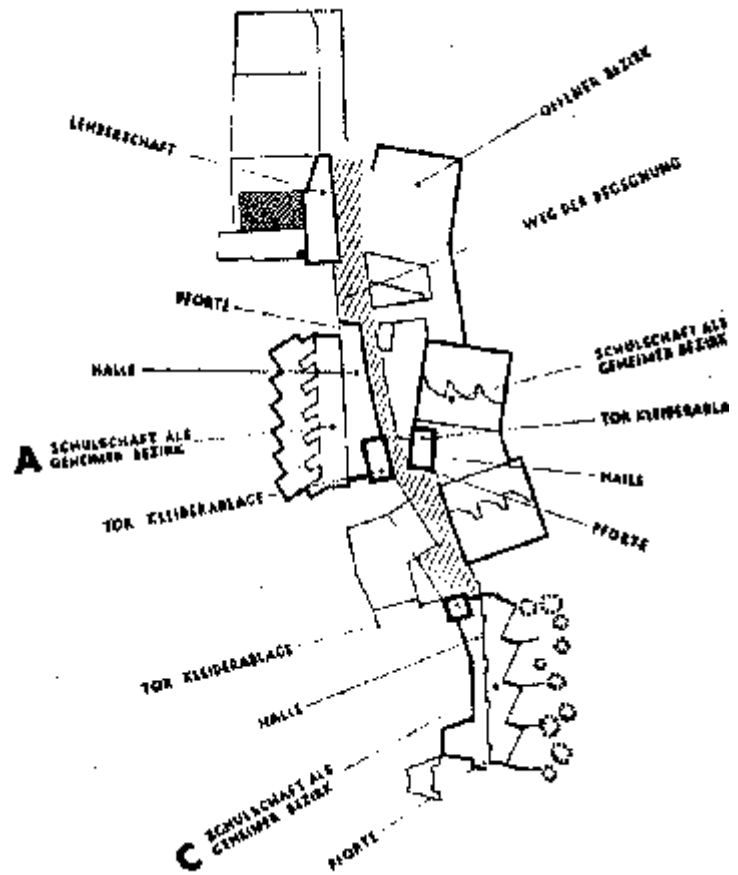

### *A tribute to 'organic' space making*

Design explorations on Hans Scharoun's 'organic' or 'irrational' way of organizing space around 'circulation', or life.

The Finale project will be either a 'Primary School' in a less dense rural area, or a 'City Library' in a dense urban context. All students will work on the same topic, after extensive research and debates which will be held during the studio hours in order to choose rural or urban context.

...and

A preliminary project will be organized according to the programs and choices of the students in relation with B.E.D. courses (Building Element Design).
