

itü faculty of architecture . 2015-16 fall . architectural design 5  
assistant prof. dr. dilek yıldız

creating an

# URBAN CATALYST in [karakoy]

designing an urban element that is shaped by the city, and then, in turn, shapes its context.  
proposing spaces that can be linked to place through the study of contextual factors  
such as morphological, social, functional, perceptual, visual and temporal qualities of the city.

the studio will be supported by readings, seminars and jury sessions.
