

URBAN DEFRAG: CONNECTING COMMUNITIES

SPRING 2016 - MIM 411E ARCHITECTURAL DESIGN STUDIO VII

Prof. Dr. Murat Gül

Research Assist. Zeynep Aydemir

In this studio students will design a cultural precinct on a selected site along Büyükdere Street between Levent and Maslak. The aim is to seek smart design solutions offering better integrating opportunities to fragmented social environments, establish pedestrian convenience and increase civic qualities in the curtilage of this highly dynamic and contrasting cultural landscape.
