Architectural Design V

AFTERMATH

REPRESENTATION

Aftermath implies the moment when the smoke has been cleared and one looks around to see the world is no longer the same.

Aftermath is a condition of potential, arising in the wake of destruction. The theme of AFTERMATH hopes to establish the broad topic of re-building and re-founding the lives and institutions after destructive events.

“new projections on old buildings in Karaköy”

seminars, readings and discussions with valuable contributions of **Bengisu Bilekli** and **Rivka Geron**.

assoc. prof. **dr. Funda UZ**
